Subject: Proposed Residential Development North of Gosditch

I refer to your recent details concerning the above and both my wife and I would wish to add our support to the Ashton Keynes neighbourhood plan , and to object to the above proposed development.

We have closely followed the development of the Neighbourhood Plan and feel that it is a good document with the right approach of only building on brownfield sites.
We have lived in Ashton Keynes for 29 years and feel that allowing construction of new houses on greenfield sites as important as this will be detrimental to the village.

Yours sincerely

John and Barbara Goddard
