Subject: Proposed residential development north of Hosdich

Dear Sir

I wish to formally object to this proposal as a resident in this village. Firstly it was never shown on the recent excellent consultation on the future plan for Wiltshire and the village. We were very happy to agree with those proposals but not this.

It is a loss of a key greenfield site of ecological importance. The school and road system could not accommodate this huge increase in population and cars. The village infrastructure cannot support s development of this size. Access from Gosditch would be compromised. This proposal creates an unacceptable urban sprawl in this beautiful village. We already have proposals for a large development in the Cotswold community centre off the spine road which is likely to go ahead.

Yours sincerely

M Low
